# Center Open & Reproducible Science (CORES)

---

The mission of CORES is to leverage Stanford's existing strengths in open scholarship and make them available to everyone.

## Key Activities:

- OpenSource@Stanford (OSPO)
- Annual Symposium (April 29th this year!)
- Open Science Awards
- Living Textbooks
- Taking the Pulse of the Planet
- Workshops & Consultations
- National level policy engagement: HELIOS, NASEM, &c.

**Russ Poldrack,**  
Director  
Albert Ray Lang  
Professor of Psychology

**Maya Mathur,**  
Associate Director  
Associate Professor  
of Pediatrics, and Biomedical  
Informatics

**Matthew Rascoff**  
Assoc. Dir for Open Ed.,  
Vice Provost for Digital  
Education

# CORES Faculty Affiliates

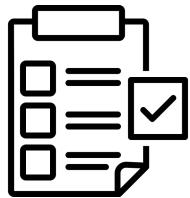

# University OSPOs - hypothesis driven learning

- This program is an experiment (thank you Sloan Foundation!)
- Overcoming impostor syndrome: can we help Stanford CS projects?!
- Overcoming distributed autonomy: no mandate, finding our value-add
- What we are doing now

Executive Director: Zach Chandler  
Interns: Elanu Karakus, Hadil Owda

OSPO unlocks new ways of interacting with a university

## On the horizon: sustainability models

- It's not always about growth or scaling
- Fiscal sponsorships
- API-based business models
- Collaboration with local accelerators

Thank you!
